ZTRAUMA | JAMIE MARICH TEDx VIDEO

TEDx Dr. Jamie Marich's friends and colleagues describe her as a renaissance woman. A dancer, musician, performer, writer and clinical counsellor, Marich unites these elements of her experience to achieve an ultimate mission: *bringing the art and joy of healing to others*. Based in Ohio, Marich is the founder of the Dancing Mindfulness practice. She is the author of *Trauma Made Simple* (2014), *Creative Mindfulness* (2013), *Trauma and the Twelve Steps* (2012), and *EMDR Made Simple* (2011). Marich began her career in human services while working as an English teacher in post-war Bosnia; she is fast becoming respected as a voice to listen to in the mental health and addiction recovery communities because of her candidness. NEW PUBLICATION EDITED BY PROF. HELEN PAYNE, SABINE KOCH, JENNIFER TANTIA:

The Routledge International Handbook of Embodied Perspectives in Psychotherapy—Approaches from Dance Movement and Body Psychotherapies, 1st Edition

Hardback: 9781138065758 | Pub: 14/03/2019 | Available for pre-order £165.00 | [Online link](#)

There is a growing interest in embodied approaches to psychotherapy internationally. This volume focuses on the respective focal professions of dance movement psychotherapy (DMP) and body psychotherapy (BP), addressing the psychotherapeutic need for healing throughout the lifespan. Within embodied clinical approaches, the therapist and client collaborate to discover how the body and movement can be used to strengthen positive relational skills, attending to the client's immediate and long-term needs through assessment, formulation, treatment and evaluation. Both DMP and BP are based upon the capacity and authority of the body and non-verbal communication to support and heal patients with diverse conditions, including trauma, unexplained bodily symptoms and other psychological distress, and to develop the clients' emotional and relational capacities by listening to their bodies for integration and wellbeing.

The creative focus group will take place on:

📅 Sun, 24 February or 03 March | Horfield Quaker Meeting Hall, Bristol, BS7 8PD from 14:00–16:45 hrs.

Interested in participating or more information please E: f.anderson147@canterbury.ac.uk

We will use dance and movement, story, writing, drawing, making, vocal improvisation, singing and objects as our tools of exploration. This is the fifth of a series of retreats that explore how aspects and notions of the feminine effect our relationships to ourselves, others and the wider world surrounding us. The retreat can be used for personal or professional development and is open to all women regardless of age or experience.

We explore these meanings in relation to personal experiences using dance and movement; story; voice and singing; drawing, collage; and writing. This is the fourth of the popular movement of colour series that allows participants to come to a greater understanding of themselves and their relationship to others. The retreat can be used for personal and/or professional development and is open to all regardless of experience.
